The Pursuit of History — 2024

2024 Pursuit of History Weekends

- “Rebellion in New England” — The first in our series for the 250th
- “Santa Fe” — The first outside of the East Coast and covering a very different time period than what we have covered
- People traveled from across the country for both events
- Content from both available as free PDFs
- **2025 goals:** Our two events are a history lover’s best choice, by far, to learn about what happened in 1775. Add a Fall event in New York working with the Theodore Roosevelt Presidential Library Foundation

2024 Pursuit of History Publications

- Builds on the timeline and other research for **The Pursuit of History: Rebellion in New England**
- From author J. L. Bell and designer and archivist Michelle D. Novak, MLS
- Unlike any other publication out there today, this will reach many more people than those attending the event
- Will be published 1Q2025
- With financial support, will continue as a series
- **2025 goals:** Launch the series with 1774 and follow quickly with 1775

THE PURSUIT *of* HISTORY[®]
